AFFIDAVIT IN SUPPORT OF
AN APPLICATION FOR A SEARCH WARRANT

I, Heather N. Wright, being first duly sworn on oath, on information and belief state:

I. INTRODUCTION, BACKGROUND, TRAINING, AND EXPERIENCE:

1. I make this affidavit in support of an application for a search warrant for information associated with the cellular telephone assigned call number **(414) 676-7891** (“**Target Cell Phone**”), that is stored at the premises controlled by T-Mobile, a wireless telephone service provider headquartered at 4 Sylvan way, Parsippany, New Jersey, 07054.

2. T-Mobile will be referred to as the “Service Provider.” The information to be searched is described in the following paragraphs and in Attachment A. This affidavit is made in support of an application for a search warrant under 18 U.S.C. § 2703(c)(1)(A) to require the Service Provider to disclose to the government copies of the information further described in Section I of Attachment B. Upon receipt of the information described in Section I of Attachment B, government-authorized persons will review the information to locate items described in Section II of Attachment B.

3. I am a Special Agent with the Federal Bureau of Investigation (FBI) and have been since July of 2010. Since August of 2020, I have been assigned to the FBI’s Milwaukee Area Violent Crimes Task Force, a multi-jurisdictional law enforcement entity charged with investigating violations of federal law, including bank robberies, commercial robberies, armed motor vehicle robberies, and other violent crime matters, defined under Title 18 of the United States Code. I have been trained in a variety of investigative and legal matters, including the topics of Fourth Amendment searches, the drafting of search warrant affidavits, and probable cause. I have participated in criminal investigations, surveillance, search warrants, interviews, and debriefs

of arrested subjects. As a result of this training and investigative experience, I have learned how and why violent actors typically conduct various aspects of their criminal activities.

4. Based upon my training and experience, I know that criminal investigations have been aided by subpoenas, warrants, and court orders related to electronic communication records by providing critical investigative leads and corroborative evidence.

5. To this end, based upon my training and experience, I know that individuals involved in violent crimes use cellular telephones to maintain contact with co-conspirators aurally or via electronic message in “text” format. I also know that it is common for suspects who commit violent crimes to take, or cause to be taken, photographs and other visual depictions of themselves, their associates, and the illegal proceeds and firearms that they control or possess.

6. The facts in this affidavit come from my personal observations, my training and experience, and information obtained from other Agents, law enforcement personnel, and witnesses. This affidavit is intended to show merely that there is sufficient probable cause for the requested warrant and does not set forth all of my knowledge about this matter.

7. Based on my training and experience and the facts as set forth in this affidavit, there is probable cause to believe that DAQUAN HENDERSON (DOB XX/XX/2005), hereafter “HENDERSON,” committed multiple Hobbs Act Robberies/Carjackings between August 5, 2023 and August 31, 2023, in violations of Title 18 U.S.C. § 1951(a), Hobbs Act Robbery, and Title 18 U.S.C. § 924(c), Brandishing of a Firearm during a Crime of Violence. I further submit that there is probable cause to believe that evidence of HENDERSON’s involvement in the robberies will be recovered in the records that are sought herein.

II. PROBABLE CAUSE

8. On June 21, 2023, at approximately 4:47 pm, the Milwaukee Police Department (MPD) responded to a theft of vehicle complaint in the area of east Kilbourn Avenue and North Prospect Avenue in Milwaukee, Wisconsin. The print recovered from the exterior surface of the front passenger door was identified as the left index finger of HENDERSON. The print recovered from the exterior surface of the rear passenger side window was identified as the left ring finger and right ring finger of DESHAUN M. WARD, dob: XX/XX/2003. WARD's fingerprint also matched the fingerprint recovered from the exterior surface of the front passenger side roof. The third individual, CALEB E. check of license plate readers, placed the vehicle repeatedly in the area of N. Sherman Boulevard and W. Hampton Avenue. Investigators viewed publicly available social media accounts for HENDERSON as well as his associates. On August 27, 2023, investigators located a social media associated to TAYSHAWN MANNS, dob: XX/XX?2007, a known associate of HENDERSON. A review of the Instagram page “brokehadtomakeaplay_” depicted a photo with multiple individuals, including HENDERSON, HASSEL and MANNS, standing around a gray colored vehicle. In another photo, MANNS, wearing the same clothes, is depicted standing next to the gray vehicle where the hood of the vehicle can be observed. The photo displayed the Kia emblem as well as the IL plate: CE29430 clearly in the photo.

The stolen Kia Sorento disregarded red traffic lights, passed other vehicles by going into oncoming traffic for approximately 1.25 blocks, and accelerated to approximately 70 mph. The stolen Kia Sorento eventually crashed into a green Subaru that had the green light for north and southbound traffic and then continued until

it crashed again in the 1300 block of S. 64th Street. Three black males fled on foot from the vehicle. Two of the three suspects were apprehended. One of the suspects was identified as HENDERSON. While HENDERSON was fleeing from police, a witness observed HENDERSON toss a camouflage “Backwoods” satchel containing a loaded 9mm Springfield XDS pistol bearing SN: BY362658 and a black .40 caliber FNH Model FNS-40 bearing SN: GKU0000208. 36. A NIBIN analysis of the spent casings, located at the scene of the shooting that occurred on July 7, 2022, at 3166 N. 16th Street, the shooting that occurred on August 7, 2023, at 4302 W. Marion Street, the Homicide that occurred on August 20, 2023, at 2340 N. 53rd Street, the Carjacking that occurred on August 24, 2023, at 1921 N. 59th Street, and the Armed Robbery that occurred on August 25, 2023, at 2402 N. 54th Street, was done and it was determined that all of the casings had been fired from the same weapon.

37. On September 3, 2023, HENDERSON identified his Facebook page during a recorded jail call to his mother as “Yrt Dae” and the Milwaukee County Sheriff’s Office obtained a Meta Platforms search warrant for the Facebook account. A Milwaukee County Sheriff’s Deputy examined the return from Facebook regarding the account on September 13, 2023 and observed that HENDERSON identified his telephone number as **414-676-7891 (Target Cell Phone)** which was “verified” on March 3, 2023 at 03:10:03 UTC by Meta Platforms in that the account holder responded to a text message sent to the listed phone number. Through an open source database check, T-Mobile was determined to be the service provider for the phone number **414-676-7891**

(**Target Cell Phone**). On September 20, 2023, I sent a preservation request to T-Mobile requesting the preservation of all information pertaining to the Target Cell Phone including Timing Advanced data from June 1, 2023 at 12:00 am CST through August 31, 2023 at 11:59 pm CST.

38. On September 25, 2023, using open source database checks, I queried the Target Cell Phone and the number was most recently associated to DAQUAN HENDERSON of 5839 N. 84th Street, Milwaukee, Wisconsin, as of June of 2023.

39. I am requesting the subscriber information, call detail records, text message connection records, text message content information, specialized location records, cloud storage records for telephone number, and Timing Advance for the **Target Cell Phone** for the timeframe of June 1, 2023, beginning at 12:00 am CST, through August 31, 2023, 11:59 pm CST.

40. On September 28, 2023, a warrant authorizing this request was granted by the Honorable Judge Stephen C. Dries, however, due to a mistake during the FBI service request system process, the request for service was never submitted to the Agents designated by the FBI to serve the warrant to T-Mobile. Due to the expiration of the execution date required by that warrant, I am requesting an additional (but otherwise identical) warrant to be authorized.

IV. CELL SITE DATA

41. In my training and experience, I have learned that the Service Provider is a company that provides cellular telephone access to the general public. I also know that providers of cellular telephone service have technical capabilities that allow them to collect and generate information about the locations of the cellular telephones to which they provide service, including cell-site data, also known as “tower/face information” or “cell tower/sector records.” Cell-site data identifies the “cell towers” (i.e., antenna towers covering specific geographic areas) that received a radio signal from the cellular telephone and, in some cases, the “sector” (i.e., faces of the towers)

to which the telephone connected. These towers are often a half-mile or more apart, even in urban areas, and can be 10 or more miles apart in rural areas. Furthermore, the tower closest to a wireless device does not necessarily serve every call made to or from that device. Accordingly, cell-site data provides an approximate location of the cellular telephone but is typically less precise than other types of location information, such as E-911 Phase II data or Global Positioning Device (“GPS”) data.

42. Based on my training and experience, I know Service Providers can collect cell-site data about **Target Cell Phone**. I also know that wireless providers such as the Service Provider typically collect and retain cell-site data pertaining to cellular phone to which they provide service in their normal course of business in order to use this information for various business-related purposes.

43. Based on my training and experience, I know that wireless providers such as the Service Provider typically collect and retain information about their subscribers in their normal course of business. This information can include basic personal information about the subscriber, such as name and address, and the method(s) of payment (such as credit card account number) provided by the subscriber to pay for wireless telephone service. I also know that wireless providers such as the Service Provider typically collect and retain information about their subscribers’ use of the wireless service, such as records about calls or other communications sent or received by a particular phone and other transactional records, in their normal course of business. In my training and experience, this information may constitute evidence of the crimes under investigation because the information can be used to identify the **Target Cell Phone** user or users and may assist in the identification of co-conspirators and/or victims.

V. AUTHORIZATION REQUEST

44. Based on the foregoing, I request that the Court issue the proposed search warrant, pursuant to 18 U.S.C. § 2703(c) and Federal Rule of Criminal Procedure 41.

45. I further request that the Court direct Service Provider to disclose to the government any information described in Section I of Attachment B that is within its possession, custody, or control. Because the warrant will be served on the Service Provider, who will then compile the requested records at a time convenient to it, reasonable cause exists to permit the execution of the requested warrant at any time in the day or night.
